Also as a courtesy to the Examiner, Applicant hereby updates the cross-reference table, previously submitted on September 19, 2003, with the patent and publication numbers for the following related U.S. patents and co-pending U.S. patent publications:

If the Examiner applies any of the documents as prior art against any claims in the application and Applicant determines that the cited documents do not constitute "prior art" under United States law, Applicant reserves the right to present to the Office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the claimed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

It is believed no fees are due with this submission. Should any fees be required to enter this Resubmission, Applicant hereby requests that any additional required fees be charged to Deposit Account No. 06-0916.
